

Local AI Office Assistant

Private · Secure · Always On-Premise

What This System Does

A fully offline AI assistant that lives entirely on your laptop. It reads your company documents — policies, protocols, leadership contacts, website content — and answers staff questions instantly, with zero data leaving the device.

Requirements It Satisfies

Privacy & Confidentiality: All processing happens locally. No cloud, no third-party servers, no data breaches.

Company Knowledge Access: Ingests your website, PDF policies, protocols, and leadership directories.

Always Available: Works without internet. Accessible anytime on the office laptop or local network.

Natural Language Q&A,: Staff ask plain-English questions and get accurate, sourced answers.

Easy to Update: Drop new PDF documents in a folder — the assistant learns them automatically.

Document Types Supported

Format	Examples
PDF	Policies, handbooks, protocols, reports
Web Pages	Company website content (scraped once)
Word / DOCX	Memos, leadership directories, templates
Plain Text / CSV	Contact lists, quick-reference sheets

How the System Works

- 1. Ingest** — Documents are loaded and split into searchable chunks stored locally.
- 2. Embed** — An embedding model converts text to vectors saved in a local database.
- 3. Query** — Staff type a question; the system finds the most relevant chunks.
- 4. Answer** — A local LLM reads those chunks and writes a clear, grounded answer.

No information is sent outside the machine at any step.

Minimum Hardware Requirements

Component	Minimum Spec	Recommended
Processor	Apple M1 Pro	Apple M2 Pro or higher
RAM	16 GB unified memory	32 GB unified memory
Storage	512 GB SSD	1 TB SSD
OS	macOS 13 Ventura	macOS 14 Sonoma or later
Processor	Intel Core i7 (10th gen+) / AMD Ryzen 7	Intel Core i9 / AMD Ryzen 9
RAM	16 GB DDR4	32 GB DDR4 or higher
Storage	512 GB SSD	1 TB NVMe SSD
OS	Windows 10 (64-bit)	Windows 11 (64-bit)
Processor	Intel Core i7 / AMD Ryzen 7 (4+ cores)	Intel Core i9 / AMD Ryzen 9
RAM	16 GB DDR4	32 GB DDR4 or higher
Storage	512 GB SSD	1 TB NVMe SSD
OS	Ubuntu 22.04 LTS / Debian 12	Ubuntu 24.04 LTS
Internet	Not required (after setup)	Not required
